

Switching between tracks and roles

In EasyChair, different tracks may be used, for example for different submission types. If you are a reviewer in more than one track, it may be necessary to switch between those tracks to see the different submissions that have been assigned to you in the different tracks.

Upon logging in, the different roles for this and other conferences may already be displayed - here, you only need to choose the correct role/track in which you would like to login. Once you have selected a role, you can switch to another role by hovering over the "EasyChair" menu item and clicking on "My recent roles" in the drop down menu:

 iLRN2024 (senior PC member of Academic Stream: Full and Short Papers [first round submissions])

You then get back to the list of roles in the different tracks. You can now switch to the next track.

Note: if you have not visited a role in a while, you might need to click on "All Roles" in the right top corner menu on the page with the listed roles.
