

Wistia: Video Hosting

The Wistia video hosting service can be used to host videos that we don't want to put on YouTube.

Basic Information

Company Name	Wistia
Company Website	https://wistia.com/
Plan	Free Plan (5 videos)
Account Owner	Jonathon Richter
Administrator(s)	Michael Hamaoka

Although we are currently using a free plan, it can be upgraded as needed. For example, we upgraded to a paid plan temporarily to host recordings of Kristin Torrence's **Getting Started with Instructional Design for Virtual Reality** workshop. We have also used Wistia to host some videos for the conference.
